PROFESSIONAL SUMMARY

Full Stack MERN Developer with 3 years of hands-on experience building, securing and deploying end-to-end web applications. Built a SaaS password manager with encrypted storage and two-factor authentication, and a multi-seller e-commerce platform with role-based dashboards. Skilled in React, Node.js, Express, MongoDB, JWT authentication and REST APIs. Open to full-stack and MERN developer roles.

TECHNICAL SKILLS

Frontend:	React.js, JavaScript (ES6+), Redux Toolkit, HTML5/CSS3, Tailwind CSS, Responsive UI
Backend:	Node.js, Express.js, RESTful APIs, Third-Party API Integration
Database:	MongoDB, Mongoose, PostgreSQL, Prisma ORM
Security:	JWT Authentication, Password Hashing, Crypto Encryption, 2FA (TOTP), RBAC
DevOps & Tools:	CI/CD (GitHub Actions), Git, GitHub, Postman, Cloudinary, Vercel, Render, AWS

EXPERIENCE

MERN Stack Developer 2023 – Present

- Built and deployed full-stack MERN apps (Kyphora, Zentro) with React frontends and Node.js/Express APIs.
- Designed secure auth with JWT, password hashing, Crypto-based encryption and TOTP two-factor login.
- Implemented role-based access across user, seller and admin interfaces with Redux Toolkit state.
- Migrated file uploads from local storage to Cloudinary in both apps, making them cloud-deployment ready.
- Use GitHub Actions CI/CD to build and verify every push, with automatic deployments from GitHub.

PROJECTS

Kyphora — Secure Password Manager & Digital Vault (SaaS)

React, Node.js, MongoDB | Live: kyphora-frontend.vercel.app

- Built a vault for passwords, API keys, secure notes, payment cards and file uploads, with sensitive data encrypted using the Crypto module.
- Added Google Authenticator-compatible 2FA, login history and active-session controls.
- Created a security dashboard with security scores and weak/medium/strong password-strength indicators, plus a built-in password generator.

Zentro — Multi-Seller E-commerce Platform

React, Redux Toolkit, Node.js, MongoDB | Live: zentro-frontend-acwj.vercel.app

- Developed a marketplace with 3 role-based interfaces (user, seller, admin), cart and order management.
- Built a seller dashboard to add, edit and delete products, with featured products, categories and a home slider.
- Implemented Cloudinary image uploads, plus React Router and Redux Toolkit for routing and state.

EDUCATION

Bachelor's Degree — Virtual University of Pakistan Currently studying

Intermediate (ICS) — KIPS Education System 2024 – 2026
