PROFESSIONAL SUMMARY

Full Stack MERN Developer with 3 years of hands-on web development (since 2023), including 1.5 years working in a remote development team. Builds and ships complete products end to end: React front ends, Node.js/Express REST APIs, MongoDB data models, secure authentication and cloud deployment. Designed, built and deployed two personal full-stack products: a SaaS password manager with encrypted storage and 2FA, and a multi-seller e-commerce marketplace with 3 role-based dashboards.

TECHNICAL SKILLS

Frontend:	React.js, JavaScript (ES6+), TypeScript, Redux Toolkit, React Router, Tailwind CSS, HTML5/CSS3, Responsive UI
Backend:	Node.js, Express.js, RESTful API Design, Third-Party API Integration, Middleware, File Uploads
Database:	MongoDB, Mongoose, PostgreSQL, Prisma ORM
Security:	JWT Authentication, Password Hashing, Crypto Encryption, 2FA (TOTP), RBAC, Session Management
DevOps & Tools:	CI/CD (GitHub Actions), Git, GitHub, Postman, Cloudinary, Vercel, Render

EXPERIENCE

Full Stack MERN Developer — Webversa Software Solutions Jan 2025 – Jun 2026

- Built and shipped full-stack web applications with React, Node.js, Express and MongoDB as part of a remote development team.
- Designed and developed RESTful APIs with Express and Mongoose, covering CRUD workflows, validation and error handling.
- Implemented responsive, reusable React components and integrated them with backend APIs and third-party services.
- Worked in a Git/GitHub workflow with feature branches and pull requests, collaborating daily with teammates across multiple projects.

PERSONAL PROJECTS

Kyphora — Secure Password Manager & Digital Vault (SaaS) Live: kyphora-frontend.vercel.app

React, Node.js, Express, MongoDB, Cloudinary

- Built an encrypted vault for passwords, API keys, secure notes, payment cards and file uploads, with sensitive data protected using Node Crypto.
- Implemented Google Authenticator-compatible 2FA (TOTP), login history and active-session controls to prevent unauthorized access.
- Created a security dashboard with security scores, weak/medium/strong password-strength indicators and a built-in password generator.

Zentro — Multi-Seller E-commerce Platform Live: zentro-frontend-acwj.vercel.app

React, Redux Toolkit, Node.js, Express, MongoDB, Cloudinary

- Developed a marketplace with 3 role-based interfaces (user, seller, admin) covering cart, checkout and order management.
- Built a seller dashboard for adding, editing and deleting products, with featured products, categories and a dynamic home slider.
- Integrated Cloudinary image uploads and used Redux Toolkit and React Router for scalable state management and navigation.

EDUCATION

Bachelor's in Computer Science — Virtual University of Pakistan Currently studying

Intermediate (ICS) — KIPS Education System
