PROFILE:

Full Stack MERN Developer focused on building and shipping production-ready web applications. Experienced designing secure REST APIs, authentication systems, and responsive interfaces, with hands-on work delivering a complete multi-vendor e-commerce platform from architecture through deployment.

EXPERIENCE:

MERN STACK DEVELOPER — FREELANCE

2023- PRESENT

- Built production-ready full stack web applications using the MERN stack
- Developed secure REST APIs, authentication, and responsive interfaces.

Zentro - Multi - Vendor E - Commerce Platform

PERSONAL PROJECT | sherazsabir.site

- Developed a production-ready multi-vendor e-commerce platform with Admin, Seller, and Customer dashboards
- Built secure authentication, product management, order processing, and a responsive MERN architecture.

Kyphora - SaaS Product

PERSONAL PROJECT | sherazsabir.site

- Built a secure vault-style SaaS dashboard with end-to-end encryption for storing passwords, secure notes, API keys, documents, and bank cards.
- Implemented 2FA authentication, active login session tracking, and full login/session history for account security.
