PROFESSIONAL SUMMARY

Full Stack MERN Developer with 2+ years of freelance experience (since April 2024) and hands-on web development since 2023, focused on secure, production-style applications. I build complete products end to end: React front ends, Node.js/Express REST APIs, MongoDB data models, authentication and cloud deployment. Shipped two live full-stack products: **Kyphora**, a SaaS password manager with encrypted storage and 2FA, and **Zentro**, a multi-seller e-commerce marketplace with 3 role-based dashboards. Seeking a MERN Developer role.

TECHNICAL SKILLS

Frontend:	React.js, JavaScript (ES6+), TypeScript, Redux Toolkit, React Router, Tailwind CSS, HTML5/CSS3, Responsive UI
Backend:	Node.js, Express.js, RESTful API Design, Third-Party API Integration, Middleware, File Uploads
Database:	MongoDB, Mongoose, PostgreSQL, Prisma ORM
Security:	JWT Authentication, Password Hashing, Crypto Encryption, 2FA (TOTP), RBAC, Session Management
DevOps & Tools:	CI/CD (GitHub Actions), Git, GitHub, Postman, Cloudinary, Vercel, Render

EXPERIENCE

Full Stack MERN Developer — Freelance | Self-Employed

Apr 2024 – Present

- Design, build and deploy full-stack MERN applications independently, covering the React interface, REST APIs, MongoDB data models, authentication and cloud deployment.
- Delivered two live products, Kyphora (SaaS password manager) and Zentro (multi-seller marketplace), detailed under Projects.

PROJECTS

Kyphora — Secure Password Manager & Digital Vault (SaaS)

Live: kyphora-frontend.vercel.app

React, Node.js, Express, MongoDB, Cloudinary

- Architected an encrypted vault for passwords, API keys, secure notes, payment cards and file uploads, protecting sensitive data with Node Crypto encryption.
- Implemented Google Authenticator-compatible 2FA (TOTP), login history and active-session controls to block unauthorized access.
- Built a security dashboard with security scores, weak/medium/strong password-strength indicators and a built-in password generator.

Zentro — Multi-Seller E-commerce Platform

Live: zentro-frontend-acwj.vercel.app

React, Redux Toolkit, Node.js, Express, MongoDB, Cloudinary

- Developed a full marketplace with 3 role-based interfaces (user, seller, admin) covering cart, checkout and order management.
- Built a seller dashboard for adding, editing and deleting products, with featured products, categories and a dynamic home slider.
- Managed application state and navigation with Redux Toolkit and React Router, and integrated Cloudinary for product image uploads.

EDUCATION

Bachelor's in Computer Science — Virtual University of Pakistan

Intermediate (ICS) — KIPS Education System
